7. DESCRIPTION (Check One) Excellent ☐ Good ☐ Foir ■ Deteriorated Ruins Unexposed CONDITION (Check One) (Check One) ☐ Unaltered Altered ☐ Moved Original Site DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE This house is located on the north side of the Breathedsville-Tilghmanton Road, about one mile southwest of Breathedsville in Washington County, Maryland, It is situated on an area of level ground and faces south or toward the road. The structure is a one-and-a-half story, three-bay log dwelling covered with a light coat of plaster and white wash. A modern, onestory frame enclosed porch is attached to the east gable end of the house. The walls are constructed of squared hewn logs set on very low foundations. The corners are secured with V-notched joining. Inside the gables, the walls are finished with horizontal coved board siding. The windows were placed in the front elevation with some concern for uniformity. The two eastern bays, however, are grouped in that half of the house. The windows contain three-over-one pane modern doublehung sashes. They are trimmed with plain architraves. The main entrance is located in the central bay of the facade. door treatment is quite simple with the trim being similar to that of the windows. The roof is covered with sheet metal. Small brick chimneys rise from inside each gable end. The eaves are finished with simple boxing. The interior of the house was reconstructed earlier in this century. A small log smoke house is located nearby. The house is in excellent condition and stands on property containing 2.48 acres.
